

# Union-Strainers

*Unions with Built-in Strainer*

## Union-Strainers

Install Union-Strainers upstream of the HVAC Air-Trap to prevent rocks, screws, nuts, etc. from getting into the trap mechanism. Inexpensive and easy to install and service.

Also, a convenient way to prevent unwanted creatures, such as snakes, rats, lizards, and insects, from entering the terminus of the drain line. Simply cap the end of the drain with a Union-Strainer. Strainer basket must be installed in the direction of water flow.

Schedule 40, white PVC

Available sizes:

3/4" 1" 1 1/4" 1 1/2" 2"

Simply cap the end of the drain with a Union-Strainer. Strainer basket must be installed in the direction of water flow.
